Profile

I am a fresher front-end developer with a solid foundation in web technologies such as HTML, CSS, and JavaScript. I have experience in creating responsive, user-friendly interfaces and ensuring that websites are visually appealing and function smoothly across all devices. I am passionate about design, performance, and delivering a great user experience. Eager to grow my skills, I'm ready to contribute to building engaging and dynamic web applications.

Education

Bachelor in Computer Science & Engineering , <i>DBATU University</i> 	2021 – 2025
Fabtech Technical Campus College Of Engineering & Research	Sangola, India
HSC in Kolhapur Divisional Board	2020 – 2021
M V High School & Jr College	Umadi, India

Projects

Online Grocery Shop

As a front-end developer, your main responsibility will be designing and developing responsive, visually appealing web pages using HTML, CSS, and JavaScript. You will create clean, easy-to-navigate layouts for customers to browse products, manage their shopping cart, and complete checkout. Your focus will be on ensuring a consistent, attractive design across all devices, delivering a smooth and enjoyable shopping experience.

Portfolio

As a front-end developer, you will be responsible for designing and building a visually engaging, responsive portfolio website using HTML, CSS, and JavaScript. Your focus will be on crafting clean, elegant layouts to showcase content and achievements. You'll ensure the design is consistent across all devices, providing a seamless and visually appealing browsing experience for visitors. Your work will prioritize aesthetics, accessibility, and ease of navigation.

Skills

Strong problem solving skills

Solve the real time problems , such as new features and handling bugs in the application.

Web Technologies FRONTEND

HTML , CSS , Javascript , React (Basic)
